Teresa,
by this email DEQ approves the June 5, 2006 *Scope of Work, Storm Sewer Camera Inspection Associated with the Gould Site*, prepared by AMEC. DEQ has no comments on the Scope of Work. The City of Portland also offered no comments following their review. As you've proposed, I would encourage you to get this baby surveyed soon so that any remedial work to limit groundwater infiltration can be incorporated into the work already planned for City storm line 22B.

As an aside, we should confirm that the Gould cap leak detection system has been evaluated (I presume based on an existing maintenance plan) and that the cap and internal drainage system is functioning as intended.

Tom Roick, Project Manager
DEQ Northwest Region
Cleanup & Lower Willamette Section
2020 SW Fourth Avenue, Suite 400
Portland, OR 97201

Thanks, Tom. That is much appreciated. I know you have your hands full.

(By the way, congratulations!)

--T

Teresa,
I will review the Work Plan and get back to you by Monday AM.

Tom

Hi Dawn --

Thanks for your response. No need for access to the City line -- it can all be done from the Gould side.

Thanks Teresa, found it on my desk upon returning from my morning meetings. Haven't had a chance to look at it; will you need to access any City lines for this work?

Hi Dawn --

You may have already received, sent FedEx for delivery this morning, a package from AMEC with our Scope of Work - Storm Sewer Camera Survey Associated with the Gould Site dated June 5, 2006. DEQ has this document in review now, and requested that we forward it to your attention.

Please feel free to contact us if you have any questions. We expect to conduct the

work as soon as possible, potentially as early as next week, pending dry weather and DEQ approval.

Thank you
